

# Environmental Requirements for Anti-Infective Medicines in Nordic Procurements - Meeting Invitation

Date: 25.04.2023

To: Industry and collaborative partners on environmental requirements in Nordic procurements

From: Eirik Sverrisson, Sykehusinnkjøp HF and chair of Procurement group NLF

## Invitation

The members of the Nordisk legemiddelforum (NLF) group on Procurement and Environment, have over the last months worked together on a common set of criteria that can be used in local or Nordic procurements of antibiotics. We want to invite the industry to a session where we present the criteria and have a discussion, so our common quest for sustainable production of antibiotics can move ahead into tenders.

The aim of this meeting is to finalize the discussion on common environmental criteria that can be used in future Nordic procurements of antibiotics medicines. When the discussion is finalized, the criteria will be used in local and Nordic tenders (pending approvals in all countries/regions).

The suggested requirements will be presented, discussed and reviewed at the meeting and there will be time later to give written input on the criteria later. Please send to me all input by end June 2023.

Meetings will be held on both on Teams and physically, in Copenhagen on June 6<sup>th</sup> and in Stockholm on June 7<sup>th</sup>. The meetings will be approximately 2 hours each, with the same content.

Please send a mail to [eirik.sverrisson@sykehusinnkjop.no](mailto:eirik.sverrisson@sykehusinnkjop.no) if you would like to attend, please also state if you will attend via Teams or physically (only 40-50 places, so first come first served).

Copenhagen-meeting 6<sup>th</sup> June 1300-1500: Teams or in person

Lokale: St. Vejerbod i Center for ledelse, Folke Bernadottes Alle 45, København Ø

Stockholm-meeting 7<sup>th</sup> June 1330-1530: Teams or in person

Conference room Fleming in City Life, Sveavägen 63, Stockholm

Welcome on behalf of NLF

Eirik Sverrisson

## Program:

Welcome to all (Swedish, Danish, Finns, Icelandic, Norwegian) interested in antibiotic environmentally sustainable production

Why environmental demands in tenders – Lars Ole Madsen, Amgros

“Antibiotic Resistance Manufacturing” certification program- [link](#) – BSI

What are the demands we propose as Nordic antibiotic criteria in tenders – Eirik Sverrisson, Sykehusinnkjøp

Timelines feedback

Q&A – industry questions

Avholdes på engelsk/program in English
