2.1 Book time slots

Click on “twSlot” in the application

The screenshot shows the Transwide application interface. At the top, there is a navigation bar with 'Transwide' and 'twCallioff' on the left, and 'twSlot' on the right. A dropdown menu is open under 'twSlot', with 'Book time Slots' highlighted. Below the navigation bar, the main heading is 'Book a time slot'. The form contains two sections: '1. Select a location:' with a dropdown menu showing 'Demo Volker, Slot demo, Zaven', and '2. Select a day:' with a date picker set to '19 January 2017'. A 'Submit' button is located at the bottom of the form.

To reserve a loading slot at a specified location on a specific date, click “Reserve a slot” in the dropdown menu:

- Choose the **location**
- Select the **date**
- Click on **Submit**

Select an available slot by clicking [X] in a free box (green) as shown in the caption.

You can select a different date for the same place of loading by using the arrows or the drop-down menu.

To update this schedule for a real-time availability situation, click 

If you want to reserve a time slot with a reference already used for an existing slot, the system will suggest you replace the existing reservation with the new reservation. If you confirm this change, the reservation will be Automatically moved to the schedule with the new date or time selected.

The screenshot shows a detailed view of a loading slot reservation. At the top, there is a 'Back' button and a title 'Thursday, 19.01.2017 - Transwide Demo Shipper'. Below the title, there is a date selector for '19 January 2017' and a 'Show' button. The main content area is divided into two sections: 'Instructions provided by the shipper' (test quidf) and 'Contact details for this location:'. Below these sections, there is a table showing the booking status for a specific resource. The table has columns for time slots from 08:00 to 12:30. The 'Max of bookings' row shows a value of 10 for each slot, and the 'Max in Total' and 'Currently Booked' rows show 0 for each slot. The booking status is indicated by [X] in a green box for all slots.

(Un)loading Point	08:00	08:30	09:00	09:30	10:00	10:30	11:00	11:30	12:00	12:30
